

## Apprentice Program Application

Lowell's Boat Shop is offering after-school apprenticeships for up to ten high school students between grades 8 and 12. Youth enrolled in this after-school program work alongside the Museum's experienced staff and volunteers to learn the skills and art of boatbuilding; this year we will build two traditional Lowell dories. Students need not have prior woodworking experience, though it is a plus.

Potential apprentices must display drive and dedication to the project throughout the school year. Participants will be rewarded with the opportunity to learn a traditional craft while gaining understanding of their community's past.

Apprentices are expected to be at Lowell's Boat Shop 2-3 days per week after school. Typically, these days are Tuesday-Thursday from 3-5:30. We do our best to accommodate students' schedules. Families of accepted apprentices are expected to join the Museum at the Family Level (\$75)

Completed applications can be mailed to Lowell's Boat Shop.

Please answer the following questions. There are no wrong answers, so please respond honestly. If you do not feel you are able to answer a question, please explain why.

The Lowell's Boat Shop After School Apprentice Program teaches the skills and art of wooden boat building. Please tell us why you are interested, and why you should be selected for the program in 250-500 words (on a separate sheet of paper).

Have you ever built something with your hands? What did you make?

---

---

---

What books have you read in the last two years?

---

---

---

Briefly explain your interest in boats:

---

---

---

How would you typically spend a free weekend?

---

---

---

Are you able to commit to the project 2-3 days per week from 2:30/3:00 until 5:30 October through April?

---

---

What do you hope to gain from this experience?

---

---

---

Please include a resume attached to this application.
